REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art of record does not provide for, nor suggests providing for executing multiple objective functions instead of various optimization methods for generating an optimized mapping of the server nodes to the service nodes. The objective functions evaluate the mappings with respect to a user-selected scenario of the network. Therefore with both the optimization methods as well as the objective functions able to be selected by the user, and they are able to be used with one another. This way the user can try various methods and determine whether they fit various functions. The closest prior art of record, namely Pace in view of Ouimet, do not allow to select both the objective function as well as the optimization method such that two of the functions are interchangeable with the optimization method. For the above reasons, in conjunction of the other limitations of the independent claims, render this case in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joseph E. Avellino whose telephone number is (571) 272-3905. The examiner can normally be reached on Monday-Friday 7:00-4:00.
